

Application No. 10/658,615
Supplemental Amendment
Docket No. 520-26-003

Examiner Lori B. Amerson
Art Unit: 3764

Remarks/Arguments

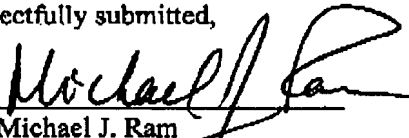

Claims 1-4, 8, 11, 13-14 are currently pending. Claim 1 has been amended. Claims 5-7, 9-10, 12, 15-23 have been canceled without prejudice. New claim 24 has been added.

Claim 1 is amended to include the limitations previously set forth in claims 5-7 and 9. The language claim 10 added to claim 1 by the amendment of September 28, 2006 has been deleted as reference to a "semi-oval shape" is inconsistent with the description in line 8 of claim 1 of the frame as comprising an arc member and a linear member. New claim 24 has been added to cover the limitation in prior claim 10 to the centrally located opening in the arc member. It is respectfully submitted that claim 1 as presently amended is not shown or obvious based on the prior art and therefore claim 1 and the remaining claims dependent thereon are patentable.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.
